THURSDAY, SEPT. 10, 1925.

DOMINION ELECTION

The long looked for announcement setting the date for the Dominion general election has at last been made and already great excitement prevails among the leaders and the rank and file of all political parties.

There have been so many questions of a controversial nature before the federal parliament for the past three or four years that there is little doubt this will be one of the keenest and most stubbornly contested elections we have had in Canada for many years.

Under ordinary conditions it might reasonably be expected that the King government would easily be returned to power since it has been in office for only four years, and since we have been in the habit in this country of giving our governments a longer term of office than that.

On this occasion, however, it is different. There does not appear to be any slogan demanding or deserving that King should be given another chance. On the contrary, even leading Liberal papers like the Toronto Globe and the Winnipeg Free Press are not coming to the assistance of the King administration, but instead are criticizing the lack of performance on the part of the government during its term of office.

The Globe blames "the King government for not having the courage to go to the country at the proper time, and for the lack of back bone on the part of the premier. While the Free Press in discussing freight rates claims that four years of Mr. King's government has left the West with less statutory protection in freight rates than it had before. It says: "The government has taken away the bone and left us the shadow."

Taking all things into consideration the prospects for the success of the Liberal party in the polls the 29th of next month are none too rosy. For this reason the contest is likely to be a lively one: Liberals working hard to overcome the loss of influential newspaper support and Conservatives working just as hard to take advantage of it. The result will be keenly watched.

WHY AT THIS TIME?

THE Dominion Railway Commission appears to have gone through a remarkable performance in arriving at a decision to lower the freight rates on grain and flour moving westward from the prairies to the Pacific coast. The ruling, too, if it is sustained provides a more favorable rate on Alberta and Saskatchewan grain and flour being shipped to Vancouver and Prince Rupert and is expected to give an impetus to shipping at the Western Coast. When the Crows Nest agreement was allocated to have the way for the Western Provinces were left something. They were allowed to retain the Crows Nest rates on flour and grain shipments to the Head of the Lakes. British Columbia has for years been keeping up a fight for lower rates on shipments moving westward for export. It is a distinct victory for British Columbia, if the railways will accept the ruling of the Commission.

This action of the part of the Railway commission coming as it does on the eve of a Dominion general election, makes it look as though the Commission is not entirely free from political influences and makes one ask why the change at this time.

The announcement that the Dominion government had selected W. A. Buchanan as Senator from Alberta is one of the most popular announcements made for some time. No appointment has been made to office which meets with such universal approval.

With a provincial by-election in Medicine Hat the end of this month and a Dominion general election the end of next month, the political pot is now boiling fairly actively.

Here and There

More than 100 persons joined the ride of the Trail Riders of the Rockies on their horseback journey from Banff to Wapta Canyon, via Marble Canyon and Lake O'Hara. The ride started on August 8.

Grain figures issued by the Harbor Commission of Montreal show that on August 1st all grain shipment records were broken by one day's delivery of 2,577,112 bushels of grain to outgoing ships. Harbor officials state that this is the first time that grain shipments in one day have topped the two million bushel mark.

Installation of machinery at the new annex of the Dominion Textile Mill at Montserrat Falls, Quebec, will be started by January first next. About 600 additional employees will be required to operate the plant. At present there are about 1,300 employed at the mills.

A prophecy that the Orient would be in the very near future by a really large importer of Canadian wheat was made recently by Hon. Dr. J. H. King, Minister of Public Works. It is predicting increased Orient trade in grain. Dr. King pointed out that imports of wheat from Canada for 1923-1924 increased by 400 per cent.

George H. Ham, known throughout Canada as the Grand Old Man of the Canadian Pacific, celebrated his seventy-eighth birthday on Sunday, August 23rd, and was the recipient of a deluge of congratulatory messages from all parts of the country. Col. Ham has been with the Canadian Pacific since 1921 and by his social activities and powers as an orator has made for himself and for the company a veritable army of staunch and faithful friends.

Butter exported from Canada during the twelve months ending June 1925, amounted to 25,006,120 pounds, valued at \$5,034,734; a decided increase over the figures of the previous year when exports amounted to 15,668,279 pounds, valued at \$5,031,254, according to a report issued by the Federal Department of Agriculture. Shipments were made to the United Kingdom, the United States, South America, South Africa, West Indies, Alaska, China, Japan, Germany, Belgium, Cuba, Holland, New Zealand and many other countries.

James Oliver Curwood, the well-known American novelist, who crossed not long ago to Europe on the "Empress of France" and returned a few weeks later to Canada on the "Empress of Scotland," wirelessly the following message from the "Scotland" to the Canadian Pacific headquarters in Montreal: "Can never fully express my appreciation of the splendid treatment accorded me by Captain Gillies and Captain Griffiths, and the staff aboard the 'Empress of France' and the 'Empress of Scotland.'"

A party of British journalists is now touring Canada at the invitation of President E. W. Beatty, of the Canadian Pacific Railway, for the purpose of gaining first-hand knowledge of economic and industrial conditions in this country. They are John A. Brist, Glasgow Herald; C. J. Jery, London Daily Telegraph; F. R. Peterson, London Times; H. Read, South Wales Daily News; Cardiff; Captain E. Aldham, London Morning Post; Hugh Martin, London Daily News; R. A. Colwell, Western Morning News, Plymouth; W. A. Rosten, Daily Chronicle, London; J. F. Chapter, Westminster Gazette, London; John Sayers, Belfast Telegraph.

Over fifteen thousand men left the east on the first harvesters excursion from the east to the wheat fields in the middle of August. Four other excursions are to follow from Toronto later in August and September, when it is expected that the majority of the remainder of the 50,000 men required for the harvest will travel west.

British teachers touring Canada under the auspices of the Overseas Educational League are now enjoying all the various forms of entertainment to be found in the Canadian Pacific Rockies. They have been riding, tramping, fishing, motoring, bathing in the sulphur springs at the Banff Springs Hotel and were the guests at a dinner there given by J. M. Gibben, secretary of the Trail Riders of the Canadian Rockies.

Confidence of United States capital in the Dominion, optimistic preparations for the new Canadian financing, prospects of a good crop, large United States purchasing in Canada, and heavy expenditures of American tourists in the Dominion were some of the reasons offered by New York financial experts for the consistent above par stand of the Canadian dollar on the New York exchange. The Canadian dollar is now at a premium on the New York exchange.

The total number of students in Canadian universities and colleges in 1924 was 52,639, or nearly one in eighteen of the total population, according to a bulletin issued by the Dominion Bureau of Statistics. Under the category of colleges, the total number in 1924 was 43. Of this total six are agricultural, two technical, two law, one dental, one for pharmacy, one for veterinary science, 38 theological, 39 affiliated, one school for higher commercial studies, one college of art and one military college.

During the coming winter travel will be the debut of a new transportation device known as the Snow-motor. This consists of two hollow rigid shaped cylinders or drums to which flanges, resembling cone screws, are attached. These drums are fixed to an automobile or tractor in the place of the wheels.

By rotating actually fixed the machine over the snow. The snow-motor is regarded as an especially valuable in the transportation of lumber; it can negotiate snow of any depth and can operate in countries where other methods of transportation are impossible or too costly, and can also make roads which other vehicles can use. It is manufactured in Detroit and will be on the market in Montreal during the coming winter.

BE WHO RUNS MAY READ.
The above pictures were taken near Lake Louise by a member of the Trail Riders of the Canadian Rockies during the recent Ride and Pow-wow. According to the photographer's version of the story the deer walked deliberately up to the sign-board, read the notice and, after snorting contemptuously proceeded to feast himself upon the forbidden flowers with all the gusto of a lumber-jack attacking a place of ham-and-eggs. It was, he said, a whimsical piece of law-breaking, committed in cold blood and with malice aforethought solely intended to show a diaphanous disregard for constituted authority and the decrees of the Lords of Creation.

Another snicker, however, is willing to take a solemn oath that the deer was a doe and that she was browsing guiltlessly among the boulders when

"GATHER YE ROSE BUDS WHILE YE MAY." The pretty flowers attracted her attention and she started to collect a few to take to her dear old grandmother who was sick in bed at home. After she had innocently gathered a mouthful of the tempting blossoms, declares this witness, the doe suddenly came across the notice board, studied it for a moment, and immediately returned the flowers to where she had picked them.

Although it is understood that the local police are investigating, it is doubtful if the truth of the matter will ever be fully known. In the meantime, however, we hope that all right thinking Christian people will give the dear little deer a dose or whatever it is, the benefit of the doubt. There is incidentally no truth in the rumour that a collection is being taken up at Banff to cover the costs of say, his or its defence.

WORLD HAPPENINGS
BRIEFLY TOLD

The Rockefeller Institute of New York has donated \$450,000 for erection of an institute of physical chemistry in Madrid, Spain.

An anti-luxury society has been formed at Tokyo by students. It hopes to induce the wealthy people of Japan to discontinue habits of luxury. Consumption of the European recently past, in the opinion of President Coolidge, would bring a broad foundation for further disarmament.

According to the city directory just issued for this year, the population of the Greater Vancouver area is figured out at more than 250,000.

A giant meteorite in Colorado is to be explored for its platinum content. Small quantities of radium recently were isolated from a meteorite.

No further announcement of their career work will be made by James P. Bagnard and Dr. W. E. Gye, until autumn. This is stated in London on authority.

Mrs. O. L. McCracken, wife of a ranchman at Helena, Montana, has paid all her daughter's school bills by carrying attractive dolls out of the roots of cottonwood trees.

Monday, October 26, is the tentative date for the opening of the 1935 season of the British Columbia League of Nature. It is reported. Last fall the season started November 3.

The City of Hull, England, at its weekly civic week meeting decided to adopt some city in each of the dominions and colonies within the empire toward which it could concentrate its overseas activities, including emigration.

"As the result of a lawsuit which has been proceeding for 30 years, a standing timber on a great stretch of forest formerly claimed by the Shoshone born family of Yellow Lake, Idaho, is to be sold by auction to the benefit of the Rutherford's parents of the district.

Hon. Charles Stewart, minister of the interior, Hon. R. Dandridge, government leader, and the senate, and Hon. P. C. Larkin, Canadian high commissioner in London, will be Canada's representatives at the meeting of the assembly of the League of Nations in Geneva in September.

North Fares Food Shortage

Shocking of Supply Ship Means Hardship For Trading Posts
Shining of the Hudson's Bay Company's supply ship Bayreuth in Ungava Bay, July 25, has caused a shortage of supplies at some of the far northern posts on the Labrador and Ungava Bay coasts, and the related trading stations in Hudson's and James Bays.

S.S. Nascopie, which rescued the passengers and crew of the Bayreuth, has her own round to make in the Arctic Ocean. She is the land, the farthest north, and the necessary relief visits on the Nascopie fleet possibly hinder the Nascopie from completing her round. The latter is now racing around the posts delivering supplies before returning for scheduled journey to Baffin Land.

Meanwhile, the crew and passengers of the wrecked Bayreuth are aboard the Nascopie and the full story of the wreck will not be told until some of them return to civilization when the Nascopie's journey is done. Whether storm, ice pressure or a treacherous reef caused the sinking is not revealed in the message from the Nascopie.

Among the residents of the far north who depend for necessities on supply ships sent by the Hudson's Bay Company are the related trading posts, where hunters, fishermen, missionaries and many of the Eskimos themselves.

Many Radio Fans

Radio Receiving Licenses in Canada Are Over 50,000

The number of radio receiving licenses held in Canada at the end of June totaled 50,600. This figure is the radio branch of the department of marine and fisheries.

Licenses issued in the western provinces were: Manitoba, 4,442; British Columbia, 2,382; Alberta, 3,011; Yukon, 22; and North West Territories, 5.

World Poultry Congress

Canada will entertain the International Association of Poultry Breeders and Investigators of Poultry Husbandry during the early summer of 1937, according to a statement issued by the federal department of agriculture. Last year this association met in Spain, and the Canadian exhibit, poultry there attracted much attention.

W. N. H. 1936

Cost Of World War

League of Nations Losses Official Figures For All Combatants

After several years work, the League of Nations has finished the first complete assessment of the material losses of the world war officially compiled from all the nations that participated. Here is the net result of the first three years ago by a gay Austrian officer.

1,939,171 known dead.
2,991,300 presumed dead.
6,939,513 seriously wounded.
1,609,029 otherwise wounded.
\$14,535,637,697 direct cost of the war.
\$29,560,000,000 property loss of the war.
\$25,551,276,250 capitalized value of loss of life.

In assessing the capitalized value of life loss, the league figures the value of a human life for war purposes at \$4,720 for Americans, \$4,140 for British, \$2,500 for French.

Powerful Radio Station

Programmes To Be Broadcast From Centre of England

The world's most powerful broadcasting station, which will provide British radio programmes for American listeners this winter, was opened recently at Daventry, as near as possible to the exact geographical centre of England. The station announced itself as BBC, operating on a 1,600 metres wave length, in its inaugural broadcast, which was heard by the Postmaster-General Mitchell Thompson.

Using 25 kilowatts power, BBC will broadcast from two triangular steel masts 800 feet apart and each 500 feet high, which will support a T-type antenna. The station is being built. It is intended to reach listeners outside the range of smaller broadcasting stations, and to send British dance music, and what not to the United States.

Preserve Ancestral Estate

Late Marquis Curzon Was Interested in Survival of Landed Aristocracy
Curzon is entitled "high value" to the survival of the landed aristocracy of Great Britain, the late Marquis Curzon of Kedleston, expressed in his will a "dedicated trust" to preserve his ancestral estate for his family.

After explaining it was not personal vanity but a hope for the continuation of England's nobility and genius, Lord Curzon added:

"I desire that my family, which has owned and resided at Kedleston for more than 800 years, shall continue to live there and the auxiliary traditions of a not unworthy past." He expressed hope that future owners of Kedleston would "equally acknowledge this obligation."

Saskatchewan Clays

New Company Incorporated to Manufacture Clay Products
Manufacture of white stoneware, wall tiles, floor tiles, sanitary ware, terra cotta, dinnerware and hotel china from Saskatchewan clays will be undertaken by the International Clay Products, Limited, a new company just incorporated at Regina.

International Clay Products, Ltd. Ready to supply clay and sand near Kootenay, in the southwest of the province, have been acquired by the company, which is capitalized at \$100,000, of which \$25,000 preferred stock will be offered to the public shortly. The company has acquired the plant formerly operated by the Brierley Brick and Coal Company, including 200 acres of coal property.

Canada's Greatest Need

Immigration Believed To Be the Outstanding Need For the Betterment of Canada
Immigration is Canada's greatest need at the present time and that this opinion is shared by thinking men, who have the welfare of the Dominion at heart, is evidenced in the fact that at the recent Niagara International congress, held in St. Paul, attended by some 5,000 business executives, delegates representing every town and city of importance in Canada, endorsed a resolution guaranteeing that they believed to be the outstanding need for the betterment of Canada—immigration.

Universal Good in Russia

People Are Poor and Do Not Care What Happens
George Selbridge, the London department store man, who has just returned from a tour of Soviet Russia, recording his impressions in the Weekly Dispatch, said:
"I do not remember there is sufficient money in Russia to buy British goods. Nobody in Russia has money to spare. Highest paid of his country receive a salary of only £20 a month, and goods of any value could not find a market among an almost penniless people."

The Russians have reached a stage of universal gloom which is almost incomprehensible to the western mind. They are meticulously polite to strangers, and although everybody is very poor, nobody will accept a tip—not even a waiter. I offered one to a train official, and with dignity he refused it. M. Litvinoff told me it was Russian policy. I cannot help admiring them for it.

Russia, he said, is a "land where nothing matters. Nobody cares what happens."

World's Longest Railway

Road Completed in Australia Is 4,543 Miles Long

The longest railway in the world is now complete by the recent laying of a connecting link, making a continuous line of track from Melbourne, in west Australia, to Adelaide, in Queensland, a distance of 4,543 miles. The line from Halifax to Vancouver, Canada, is 3,783 miles, and by way of the Canadian Pacific Railway, 3,662. These two are direct lines, whereas the Australian distance is the result of a connecting up of two systems.

Reasonable

"You want a divorce from your husband. On what grounds?"
"Incomprehensibility! I want a divorce and he doesn't!"

Shorthand is believed to have been practiced by ancient Phoenicians and possibly in Babylon.

Historic Sites Board Meets

Thirty-eight Sites Are Recommended For Marking as Being of National Importance

The fourth annual meeting of the historic sites and monuments board of Canada was held recently in Ottawa when over one hundred and fifty sites were reviewed and thirty-eight of these of national importance. Sir George E. A. Cruikshank, chairman, presided at the meeting and the other members in attendance were, Dr. J. H. Coyne representing Ontario; Dr. J. G. Webster representing the Maritime Provinces; His Honor Judge F. W. Hovay, representing western Canada; Mr. A. Patenaude representing Quebec; Mr. J. B. Harkin, commissioner of Canadian national parks, representing the department of the interior; and Mr. A. A. Pinard, Canadian national parks, secretary. The historic sites and monuments board of Canada acts in an advisory capacity to the department of the interior in connection with the work of marking the historic sites of the Dominion.

Of the sites selected by the board at the 1935 session, the most important include the following: Champlain's Landing, Algonquin Island, opposite Pembroke, Ont. off the Ottawa river in Canada, St. John's to La Prairie, at La Prairie, Que.; the Temiskaming "Parque route," at Cahoon, Ont.; Puyallup Slave Refuge, at Ahrensburg, Ont.; inception of the construction of the Rideau Canal at Ottawa, Ont.; Port de l'Appelle, near Port de la Reine, on the de Verdery's original point, at Portage la Prairie, Man.; Port Steele, B.C. famous as a North West Mounted Police Post.

Approximately twenty allies are listed each year by the Historic Sites Board, and among the most important dealt with in 1934 were the following: Longhouse, including Charlottetown, P.E.I.; Fort Edward, Champlain's habitation at Gravelle, and the First Royal Dockyard at Halifax, N.S.; Fort Crozier, Fort Charlesbourg, and Ouelletown, Que.; Fort Netavanga, near Collingwood, first inland ship canal, and Port de La Pointe, Ont.; Port Douglas, Man.; Baloch, and Cut Knife Hill, Sask.; Fort La Macquerie, and Fort Calgary, Alberta; Fort Yale, Prospect Point, and Fort Langley, B.C.

Hungarians Hold Celebration

Mark Twenty-fifth Birthday of Settlement of Beaver, Sask.

The little Hungarian settlement of Beaver, Sask., celebrated its twenty-fifth anniversary July 25, when Hon. M. J. Macdonald, minister of agriculture, accompanied by the department of agriculture, and the Hungarian consul-general, Armand Kamm, visited the township and were welcomed by the mayor and a delegation of officials.

Lieutenant-Governor Newlands addressed the gathering, spoke highly of the Hungarian settlers and congratulated them on their success. He hoped many more of their countrymen would take advantage of the unlimited opportunities awaiting them in the west of Canada.

The founder of the settlement was Szabo János, now known as John Szabo, who came to Beaver 25 years ago and his log cabin still stands as a reminder of his early efforts to overcome difficulties and to found what is now a thriving community of some 1,200.

Hermit Amazed At Progress Of World

Nebraska Man Has Spent Thirty Years in Cave

Henry Morris, who has dwelt in a cave in the midst of a large forest south of Omaha for thirty years, has paid his first visit to this city and has been amazed at the progress of the world. He was accompanied by J. H. Connelley, who conducted his Wild West shows here.

An Omaha newspaper brought the news to Morris that he found cause for wonder and also alarm in his first sight of the motor car, the elevator and the many pictures.

His experiences were perplexing to him. He did not understand how "the world could travel without wheels," he asked the complicated mechanism of a telephone, and the fast moving pace of the present-day world, seen after thirty years of seclusion, led him to wonder if the new ways were the best.

Livestock Marketings

Livestock marketings in Canada during the past year were the best experienced for many years, according to the department of agriculture report. There were 91,020 cattle, 255,197 calves, 3,094,213 hogs and 45,656 sheep marketed in 1935, as compared with 82,221, 251,652, 2,262,652 and 512,289 respectively in the previous year.

In certain parts of England, the belief prevails that a hotly built plant of a house will protect it from lightning.

Patrol Atlantic For Icebergs

Vessels Equipped With Radio Warn Ships of Danger

Iceberg accidents in the north Atlantic now seem to be a thing of the past, instead even escapes, more or less narrow, appear to be largely incidents of the past. Yet at one time, in the late spring and early summer months, fear of icebergs, especially in foggy weather, caused mariners to adopt a more southerly course and to move with the utmost caution.

In the lines of Atlantic travel prompted the establishment of the international ice patrol, whose activities have been uniformly aided by the development of radio. Planned internationally, this valuable service is carried out under agreement by the governments of the world. The vessels, which provide two vessels operating from Halifax, Nova Scotia, as their headquarters. These ships are alternately for periods of three weeks, and patrol the shipping lanes of traffic to and from Europe, to the northward and eastward, from which to help to reduce the danger is supposed to end. When ever their observations bring indication of the presence of icebergs, radio messages are broadcast with the necessary warnings.

Say Britain Should Not Reduce Navy

Lord Jellicoe Urges People to Oppose Naval Disarmament

Declaring that naval disarmament "was not worth the risk," Lord Jellicoe, famous English admiral, has urged the people to press their government not to have England's naval defences further reduced.

"Some people have pointed to the fact that the conference was the solution of our defence and to the fact that the world was at peace," he said. "But I personally do not see any sign of it. Some have said that if we would disarm other world, but I do think that it will not take that long."

"Let the defence be cut down," he says we hear now is the same old cry we heard after the battle of Toulon. The only way we can check the tendency on the part of governments to disarm on no defence, because they feel the money is needed for other purposes, is for the people themselves to insist upon the necessity that they will not have the naval defences of the empire reduced."

Should Go After Business

"When the Niagara called upon me," said J. P. Morgan, "I said, 'I am not a businessman, I am a banker.' I have been a banker for 40 years. I have seen the growth of Canada from a small settlement to a great nation. I have seen the growth of the Canadian industry. I have seen the growth of the Canadian people. I have seen the growth of the Canadian nation. I have seen the growth of the Canadian empire. I have seen the growth of the Canadian world. I have seen the growth of the Canadian universe. I have seen the growth of the Canadian everything."

American Fleet in Australia

President Coolidge Expresses Pleasure of United States at Reception

Taking cognizance of the arrival of the United States fleet in Australian ports, and of the welcome given it there, President Coolidge, in a statement, expressed the hope that the fleet's visit in the Pacific would help emphasize the "cordial relations" which now exist between the United States and the other nations of the world.

The statement, prepared primarily for transmission to The Melbourne, Australia, Herald, follows:
"The welcome accorded the American fleet upon its arrival in Australian waters by the government and the people of Australia has been most gratifying."

"It is my hope that the visit of the United States fleet in the Pacific may lead to a more intimate relationship between the United States and the other nations of the world."

Passed Through Town Bearing His Name

Field Marshal Pleased That B.C. Town Was Named "Halg"

The Halg special train passed through the town of Halg, B.C., Halg learned for the first time that a town along the transcontinental line of the Canadian Pacific Railway had been named after him.

The field marshal was sitting in his parlor compartment when a large red station bearing the name "Halg" was sighted. When he leaned forward in his chair and looked at the name he was asked by a Canadian if he did not know that this town had been named after him several years ago. He said: No, it is the first I had heard of it and he looked very pleased.

Countess Halg wrote two letters to their daughters in London to be sent back and posted at King as courtesy.

Tomb Of King David

Is Reported to Have Been Discovered Near Jerusalem

What is believed to be the long sought tomb of King David has been discovered by an expedition by an expedition working under the direction of Rev. J. Garneau Duncan, according to a dispatch to the London Times.

The Rev. Mr. Duncan, who is working in behalf of the Palestine exploration fund, announced the excavation of the tomb on the side of the old city, a series of rock chambers in which are believed to be remains of the tomb of the ancient ruler of Judea, dating back to 1000 B.C.

Sheriff—"Little man, you can't swim here." "Why, sir, it's deep enough." "Sheriff—"It's not that, but the law doesn't allow swimming here."

Interesting Local Items

Mr. T. A. Hicks spent a few days in Calgary this week visiting with friends.

Andy Mayne, of Brooks, spent the holidays in town visiting his sister, Mrs. Blair.

John Kitchen, Jr., who has been undergoing treatment at Rochester, returned home last Monday.

There will be a dance in Cliff hall on Friday evening this week. Jimmy Morne's orchestra will supply the music. Good time assured.

The season for card shooting opens next Tuesday. Don't go shooting without a license, or you can get one at the Review office.

Mrs. Fred Jones left yesterday for Calgary to visit her son who is undergoing treatment there. Gordon Newman accompanied her.

The general monthly meeting of the G. W. A. will be held in the club room on Sunday afternoon at 2 o'clock. A full attendance is desired.

Mrs. (Dr.) Brown, formerly of Redcliff in town, has returned home. Mrs. Hicks, Mrs. Brown, has made arrangements to have their old home on Fifth street torn down and moved east where it will be rebuilt.

Frank Alton, our local socialist, has moved his office across Broadway to the building previously occupied by F. H. Courtnall. Mr. Alton's home is in his new quarters and prepared to do business.

We have been talking in a number of people who have seen the picture "Ten Commandments." They say it is one of the best they have ever seen. It will be shown in the Monarch theatre, Medicine Hat on next Monday.

Mr. and Mrs. C. E. Duffield and their two younger sons returned last week end from an extended motor trip through the States. They report a most enjoyable outing with splendid roads and scenery.

The S. O. L. Grand Lodge of Alberta held a successful convention in Medicine Hat this week. E. H. Lamm, of Calgary, was elected President, and J. W. Pichard, of Medicine Hat, Vice-President. The convention closed in Red Deer next week.

Conservatives of Medicine Hat constituency are planning on holding a convention in the near future to select a candidate for the approaching Dominion general election. The names of Gilbert Blacklock and Wm. Cousin are mentioned as possible candidates.

U. F. A. locals are now making arrangements to hold a convention in Medicine Hat for the purpose of selecting a candidate for the Dominion election.

We have heard no mention of an effort to bring made out the present member, Robt. Garthner, to accept the nomination.

The funeral of Howard William the infant son of Mr. and Mrs. Artillery, took place last Saturday from Johnson's undertaking parlors, Medicine Hat. The funeral was largely attended by Redcliff friends.

Funeral services were held for the bereaved parents. Flowers were sent by Mr. and Mrs. G. N. Pearson and family, Mr. and Mrs. Wells and family, Mr. and Mrs. McDermott and family, Mr. and Mrs. Binkley and family, Mr. and Mrs. Joe Poleska, Miss Govey, Mr. and Mrs. T. W. Wilson and family, and Mr. and Mrs. Brooker.

Mr. and Mrs. Gordon Stone motorized over from Calgary last Saturday and spent the week end with Mrs. Stone's mother, Mrs. G. McKay.

Mrs. Hicks is in Calgary this week making a fine new up-to-date line of goods in both ladies and gents wear for her store here.

Wm. Ferguson, ex-member of the Manitoba legislature, while motoring through this district, stopped over in Redcliff yesterday to visit E. L. Stone.

It has been announced that final wheel pool payments for 1924-25 crop would be 11c for No. Northern, bringing the total payment for the section to \$1.66 per bushel.

More than fifty million feet of lumber property of the Haverbury Lumber company, was destroyed by fire which broke out this morning at 5 a.m. at the west of the island on which the company's yards, mills and houses are located, just opposite the town of Haverbury, on the Ottawa river.

The loss is set by E. L. Blackburn, of Ottawa, managing director, at \$7,000,000 in value to be well covered by insurance.

Percent of this year's crop in the U. S. calculated from conditions existing September, and according to the department of agriculture, placed over at 2,885,000 bushels, winter wheat at 2,885,000 bushels, spring wheat at 284,000 bushels and the total wheat crop at 700,000 bushels.

C. R. CROF REPORT (Continued From Front Page) sections of Grandprairie district it is now only about 100,000 bushels, and is compensating to spread in stock and continued wet weather would soon take heavy toll. Yield and grain have been up to expectations.

One notable feature of the tourist season in the Canadian Rockies this summer has been the demand for saddle horses, according to J. M. Gibson, secretary of the Trail Riders, who recently returned to Montreal from the west. The practice is growing of sending the horses in advance to points where the trail crosses a motor road and thus one commences one's ride at a point thirty or forty miles from one's headquarters. Thus the great cavalcade of over one hundred riders who participated in the recent three-day cross country ride between Marble Canyon on the Banff-Windermere Highway to Wapta Bangalow Camp on the Canadian Pacific Railway, was made possible and convenient to take only two hours to convey the riders from Banff and Lake Louise by motor bus to the points of departure.

Twelve British newspapermen representing some of the most important dailies in Great Britain, are now making a six weeks' tour of the country over Canadian Pacific lines.

The party will travel from Halifax to the Pacific Coast taking in all the important industrial and scenic points of the country. They will spend a day at the Canadian National Exhibition at Toronto, and will visit the famous Bangalow Camps in Ontario, as well as the beauty spots in the Rockies. They arrived at Quebec on August the 2nd, on the Montclair, the object of the tour being to correct in the minds of representative British journalists the erroneous impressions recently made in England regarding Canada by certain sections of the press.

Under the heading, "The Inconspicuous of Men," C. B. Fletcher contributes the following interesting remarks on freight rates to the "August Railway Review."

"Men's progress is measured by his adaptability to his surroundings and his opportunity to trade with his fellow men by exchanging products. Transportation is the essential instrumentality for trade, commerce or business of any kind."

"The phenomenal prosperity of the United States today is the direct result of the most efficient transportation facilities in the world railroads."

"Railroad transportation is worth ten times what it costs today to ferry people in this nation. The railroads haul your meat 500 miles for 30 cents; they haul your goods for 30 cents for cheap cuts of meat or 60 cents for special cuts of meat or from 60 to 150 times the cost of transportation."

"The railroads haul flour 400 miles for 12½ cents a hundred, 4 pounds for one cent. You pay 10 cents a pound for bread or 70 times the cost of transportation."

"You pay one dollar for a meal at a first class hotel on which the freight charges were less than two cents, including everything served, and the cost to cook it, and then tip the waiter ten cents or five times what the railroad received for hauling it 400 miles or more."

"The same man who tips the waiter ten cents will go out and make a speech and complaint of high freight rates which are not one-fifth of the amount of his tip."

"Fugate, there isn't a fellow!"
